

MISSION STATEMENT

Who We Are:

Corfe Mullen Climate Change Working Group is made up of residents and CM town councillors working together to help address climate change and the ecological emergency.

Vision:

- For Corfe Mullen to become carbon neutral by 2030.

Objectives:

1. To promote community action through local initiatives.
2. To reduce our negative impact on the climate and protect and enhance biodiversity.
3. To increase awareness through collaborative action and community engagement.
4. To make the best use of local resources and expertise.
5. To produce a Climate Change and Ecological Emergency Local Action Plan.

Values:

We believe that with community-wide collaboration we can have a greater impact through:

- Respectful debate
- Building knowledge together
- Education
- Science and evidence-based action
- Strength in community
- Social responsibility
